Finished Elegance® can be painted should you select to change the color. If you are going to paint Finished Elegance we encourage you to take the following steps:

Step 1: Remove dust, dirt, and fine particles with a damp towel/cloth
Step 2: Scuff with general purpose scuff pad or equivalent (320 grit or higher)
Step 3: Wipe clean with damp towel/cloth and allow to dry before painting

If you do paint Finished Elegance, remember the paint can only dry from the outside in due to the coating. Therefore the dry time is significantly longer. Full cure could take as long as 30 days.
